

**Краевая диагностическая работа по АНГЛИЙСКОМУ ЯЗЫКУ****ВАРИАНТ № 1****ИНСТРУКЦИЯ ПО ВЫПОЛНЕНИЮ РАБОТЫ**

Работа состоит из трёх разделов, включающих 4 задания.

Раздел 1 «Чтение» включает 2 задания на установление соответствия. Рекомендуемое время выполнения задания **B2** – 7 минут. Рекомендуемое время выполнения задания **B3** – 8 минут. Рекомендуемое время на выполнение Раздела 1 «Чтение» – 15 минут.

Раздел 2 «Грамматика и лексика» включает в себя задания **B4-B10**, предполагающие краткий ответ. При выполнении этих заданий вы должны самостоятельно записать ответ в соответствующем месте работы. Рекомендуемое время выполнения Раздела 2-10 минут.

По окончании выполнения заданий каждого из этих разделов не забывайте переносить свои ответы в Бланк ответов № 1.

Раздел 3 «Письмо» состоит из одного задания и представляет собой небольшую письменную работу - написание личного письма. Рекомендуемое время на выполнение раздела 3-20 минут. Ответ на задание **C1** пишется на обратной стороне Бланка ответов № 1.

Общее время проведения работы 45 минут. Рекомендуется выполнять задания в том порядке, в котором они даны.

*Желаем успеха!*

**Раздел 1. Чтение**

**B2** Установите соответствие между заголовками **1-8** и текстами **A-G**. Занесите свои ответы в таблицу. Используйте каждую цифру только один раз. В задании один заголовок лишний.

- |                                  |                            |

| 2. ADOPT AN ANIMAL               | 6. EXTINCT ANIMALS         |
| 3. A BRIGHT FUTURE FOR TRANSPORT | 7. MORE THAN ENTERTAINMENT |
| 4. AN UNUSUAL ANIMAL             | 8. THINK BEFORE BUYING     |

- A.** According to a new survey, many pets are the 'masters' of their homes. One in ten people in Britain say that their cat or dog sleeps in their bed and eats freshly made food, for example. What about you? Are you the boss of your pet or is your pet the boss of you?
- B.** There are quite a few companies producing battery-powered vehicles these days. For example, the Tesla Roadster travels at more than 200kph and accelerates to 100kph in four seconds. Remarkably, it looks a lot like any other sports car. Therefore, the cars of the

future will hopefully be greener and quieter than the cars of today, but they will look just as attractive.

- C.** Using the underground can be a very fast and efficient way to get around a city. Trains usually run every few minutes at busy times and there are usually several lines that take you wherever you want to go. Moreover, you avoid the chaos of the city traffic.
- D.** When the Duckbilled Platypus was first discovered in the late 1700s, a drawing of the animal was sent back to Britain. At first, the scientists there thought that the strange collection of features must be a joke. They believed somebody had sewn a duck's beak onto the body of a beaver-like animal.
- E.** With just one small payment a month you can not only save the life of one particular animal that you choose, but you can also help to protect an entire species. Your donation will be put to very good use, funding the care and protection of your animal and helping the conservation of its species. You will also receive a certificate, stickers and photos of your animal to show you how it's doing.
- F.** One of the best ways to reduce the amount of rubbish you create is to shop more carefully. Never buy more than you need, for example, and try to buy products that are reusable, refillable or concentrated. Also don't forget to take your own bags with you instead of using new ones.
- G.** Most of today's zoos keep wild animals. However, this is not just for the amusement of their visitors, but more importantly for the conservation of endangered species, and also for education and research. Zoos aim to help save the variety of life on Earth through conservation activities such as the breeding of endangered species.

One evening in early October, 1871, a small fire started in a shed behind the Chicago home of a Mr and Mrs O'Leary.

Neighbours hurried to try to protect the house from the blaze. As the fire grew, the Fire Department was called, **A)**\_\_\_\_\_.

When the fire fighters were finally sent, they were sent in the wrong direction, **B)**\_\_\_\_\_. Also, there was a strong wind from the southwest that evening, which drove the blaze towards the business and commercial districts of the city.

Wood was commonly used as a building material at the time, and this made the situation worse **C)**\_\_\_\_\_.

Eventually, the mayor realised that situation was out of control and called for help from neighbouring cities. However, the fire fighters were forced to give up the fight **D)**\_\_\_\_\_.

At first, most of the residents of the city were not too worried about the fire, E) \_\_\_\_\_. Many people fled to the banks of Lake Michigan to escape the fire.

The fire burnt itself out more than twenty-four hours after it had started, F) \_\_\_\_\_. At first, the smoking remains of the buildings were far too hot to be examined, so it was not possible to see how much damage had been caused for several days.

It eventually became clear that the fire had destroyed an area of eight square kilometers and three hundred people had lost their lives.

1. as it meant that flying embers soon set other buildings on fire
2. but then people began to panic as the flames continued to spread
3. because nobody knew exactly how the fire started
4. which gave the flames more time to take hold
5. as the winds began to drop
6. but it seems that the office on duty did not take the alarm seriously
7. when the flames destroyed the city's waterworks

## Раздел 1. Чтение

**B2** Установите соответствие между заголовками **1-8** и текстами **A-G**. Занесите свои ответы в таблицу. Используйте каждую цифру только один раз. В задании один заголовок лишний.

- |                             |                           |
|-----------------------------|---------------------------|
| 1. NOT SUCH A HEALTHY SNACK | 5. A MORE CONVENIENT FOOD |
| 2. IMPROVING HEALTH         | 6. SHOPPING PREFERENCES   |
| 3. A MUCH-LOVED SNACK       | 7. SMART SHOPPERS         |
| 4. DIFFERENT TASTES         | 8. THE RIGHT INFORMATION  |

- A.** Sandwiches – or ‘samies’ as Brits like to call them – were first eaten in Western Europe, but they are now enjoyed in countries all around the world. Sandwiches have been a favourite lunchtime snack in Britain for years. Each year more than 2 billion are sold there. The most popular sandwich filling is chicken, which accounts for 30% of all sandwich sales.
- B.** Some experts say that a visit to the countryside can be very good for you. Getting close to nature can help people who feel angry, depressed, confused, tired or stressed, they say. And in fact, a recent report showed that after spending a few hours on a farm, 95% of visitors felt less tired.
- C.** Recently, several newspapers have published articles with headlines like ‘Bacon sandwich contains more salt than 10 bags of crisps’ and ‘Cheese sandwiches more fat than a

hamburger’. This came as a shock to many people because they thought they had been buying something healthy to eat. Maybe the best thing to do is to make your own sandwich at home.

- D.** Although teenagers research merchandise and learn about the latest trends online, it seems that they prefer traditional shopping when it comes to purchasing the items they want. Teenage boys often buy more online than girls. They sometimes buy items such as music and high-tech gadgets. It appears that most teenage girls still prefer the social occasion of going to shopping centre with their friends.
- E.** Many people are trying to do their part to help solve environmental problems by making better choices about what they buy. Consumers are learning more about which products are recyclable, non-toxic and energy efficient and deciding their purchases based on this information. Today, there are more eco-friendly products to choose from than ever, which shows how the buying power of consumers can make a difference.
- F.** In English-speaking countries, people generally prefer sweet-tasting ice cream – popular flavours include chocolate, vanilla and strawberry. But in Japan, sour-tasting ice cream is very popular. Fish-flavoured ice cream, cheese ice cream, beef ice cream and garlic ice cream are just a few of strange flavours available there. But you can also buy sweet ice cream in Japan; the two top-selling flavours in the country are vanilla and chocolate.
- G.** Watermelons are a favourite summer fruit, but as they are so big, it isn’t always easy to carry them home from the supermarket. Well, now farmers have developed a baby watermelon that is only two and a half centimetres in size! It is called the Pepquino micro-melon and it looks just like a normal-sized melon but the skin is soft, it has a fresh, crisp taste like a cucumber and it can be eaten in just one bite!

Engineers around the world have been very busy working on a new generation of robots that can do most household chores.

Unlike robots of the past, these new robots can adapt to different situations **A)** \_\_\_\_\_ . Some can even interact directly with humans.

One such robot is a robot called ‘Domo’, **B)** \_\_\_\_\_ . Domo has cameras inside his eyes that enable him to ‘see’ everything that happens in front of him.

The information that Domo ‘sees’ is fed to twelve computers **C)** \_\_\_\_\_ . Domo can learn how big an object is, for example, and then decide how to put it on a shelf. Also, if Domo drops something in the middle of doing a task, he can stop, pick it up, and start again.

Across the Atlantic, researchers in Japan have developed the ‘Home Assistant Robot’ or HAR. HAR is very good at carrying out many different kinds of household chores **D)** \_\_\_\_\_ . In recent demonstrations, HAR has shown that it can mop floors, tidy a

room, clear a table, open and close doors, move furniture and even pick up and wash clothes.

HAR is so clever it can even learn from its own mistakes E) \_\_\_\_\_.

The engineers who made Domo and HAR hope that these and similar robots will soon be able to assist those F) \_\_\_\_\_. In this way, they will be able to live more independent lives.

Of course, these robots could also be useful in places other than homes, such as in factories to help workers on assembly lines, or on farms.

1. who are elderly or disabled with their everyday household tasks
2. which process the information and 'decide' how to best deal with a situation
3. so any errors it makes, such as putting clothes in the fridge, are never repeated
4. which engineers at the MIT Humanoid Robotics Group have recently developed
5. because they could store information which was used at another time
6. which will probably make it very popular with home owners when it goes on sale
7. and perform tasks without users always having to tell them what to do

**B5** The machine is designed to \_\_\_\_\_ by as many RIDE types of people as possible.

Edward Turner designed the bike as part of a college assignment to rethink an everyday object and make it

**B6** \_\_\_\_\_ than it is now. POPULAR

**B7** Edward said, 'I looked into \_\_\_\_\_ a bike that DESIGN could be used by people who would not normally get on one.

For many people, especially families living in inner-city areas, there \_\_\_\_\_ not enough room at home for them to BE keep enough bikes for the whole family.

**B9** We \_\_\_\_\_ our bike easier to adjust than other MAKE bikes so that any family member can get on it and go for a ride.

Engineers around the world have been very busy working on a new generation of robots that can do most household chores.

Unlike robots of the past, these new robots can adapt to different situations **A)** \_\_\_\_\_ . Some can even interact directly with humans.

One such robot is a robot called ‘Domo’, **B)** \_\_\_\_\_ . Domo has cameras inside his eyes that enable him to ‘see’ everything that happens in front of him.

The information that Domo ‘sees’ is fed to twelve computers **C)** \_\_\_\_\_ . Domo can learn how big an object is, for example, and then decide how to put it on a shelf.

Also, if Domo drops something in the middle of doing a task, he can stop, pick it up, and start again.

Across the Atlantic, researchers in Japan have developed the 'Home Assistant Robot' or HAR. HAR is very good at carrying out many different kinds of household chores **D)** \_\_\_\_\_. In recent demonstrations, HAR has shown that it can mop floors, tidy a room, clear a table, open and close doors, move furniture and even pick up and wash clothes.

HAR is so clever it can even learn from its own mistakes **E)** \_\_\_\_\_.

The engineers who made Domo and HAR hope that these and similar robots will soon be able to assist those **F)** \_\_\_\_\_. In this way, they will be able to live more independent lives.

Of course, these robots could also be useful in places other than homes, such as in factories to help workers on assembly lines, or on farms.

1. which process the information and 'decide' how to best deal with a situation
2. who are elderly or disabled with their everyday household tasks
3. and perform tasks without users always having to tell them what to do
4. because they could store information which was used at another time
5. which engineers at the MIT Humanoid Robotics Group have recently developed
6. which will probably make it very popular with home owners when it goes on sale
7. so any errors it makes, such as putting clothes in the fridge, are never repeated
